

# Scary Halloween Tree Scenery - Halloween Pumpkin Carving Stencil

Illuminated by a full moon in the background (which will be part you will cut out), this spooky tree stands alone with gravestones at its foot, scary Jack-O-Lanterns hanging from its branches, an eerie owl perched atop and bats flying all around. It takes some patience to carve between the branches and the eyes of all the pumpkins, but the results are miraculous. If you want to save your hard work for years to come, carve this spooky Halloween tree design on a foam pumpkin. To see how the carved pumpkin looks, go to <http://celebrating-halloween.com/pumpkin-carving/scary-halloween-tree-scene-pumpkin-carving-pattern.shtml>

Print this page on an A4 size sheet. Enlarge or make small while printing, as needed depending upon the size of your pumpkin. Carve Out the GRAY parts.
